

Course Title: Basic Shoe Designing, Pattern Making & Sample Preparation

180 days Lesson Delivery Plan

Hour-6 hour Per Day

Duration- 360 Hours

Day	Unit of Competency	Topics	Remarks
1	Knowledge on footwear & shoe designing	Shoe Types	
		Shoe Components	
		Shoe Materials	
		Shoe Sizing	
		Shoe Construction	
		Shoe Making Process	
2		The fundamental of shoe designing	
		Knowledge on Shoe Last	
		Concept of pattern making	
3	Pattern making of a Oxford shoe	Masking shoe last	
		Mark Grammatical & Design line on last	
		Carrying out mean forme	
4		Develop standard forme	
		Create sectional pattern of upper & Lining	
5		Carrying out pattern of bottom profile	
6	Pattern making of a Derby shoe	Masking shoe last	
		Mark Grammatical & Design line on last	
7		Carrying out mean forme	
		Create sectional pattern of upper & Lining	
8		Carrying out pattern of bottom profile	
9	Making Sample of a Oxford shoe by own pattern	Cutting all components of shoe	
10		Assembly upper components	
11		Shoe Lasting & Sole attaching	
12	Sample making of a Derby shoe by own pattern	Cutting all components of shoe, Select raw Materials	
		Cutting all bottom pattern as own pattern	
13		Setting and sewing all components	
		Assembly upper components	
14		Shoe Lasting & Sole attaching	
		Shoe finishing	
15	Sample making of a Sandal shoe by own pattern	Pattern making of a Sandal shoe	
16		Cutting all coponents of sandal, Assembly and sweing upper components,	
17		Insole preparation, Lasting & assembling	
18	Pattern & sample making of a pump shoe	Pattern making of a pump shoe (upper & Lining)	
19		Cutting, assembling and sewing componontes	
20		Sample making of pamp shoe by own pattern	
21	Material consumption and Costig, Product costing		
22	Identify types of leather and shoe materials		
23	Materials sourcing and price negotiation		
24	Industrial Visit (Export Oriented Factory)
